Commission buys car, equipment & firms library funding

by Marvin McLwain, Editor

The Coffee County Commission held its bi-monthly meeting Tuesday morning in lieu of Monday which was the Memorial Day holiday. Commissioners also changed the meeting time to 9:00 a.m. instead of the 6:00 p.m. evening session as is policy for the second meeting in the month.

In the meeting which lasted just under an hour, commissioners bought a car for the sheriff's department, three pieces of equipment for the highway department, and affirmed the decision made in the last meeting concerning library funding.

Three bids ranging from \$13,995.00 to \$13,050.00 were received on replacing a sheriff deputy's car which was recently totaled in a wreck. After reviewing the bids, Coffee County Sheriff Ben Moates recommended accepting the low bid, \$12,800.00 plus \$250.00 delivery charges, submitted by Pursuit Unlimited of Oklahoma. The vehicle will be a used, reconditioned vehicle with low mileage (for a police car) of 59,000 miles.

While still in a "buying mood," commissioners heard County Engineer Randy Tindell's recommendation on the purchase of three pieces of equipment for his department - a front-end loader, motor grader and a back hoe.

On the loader, commissioners accepted Thompson Tractor Company's (Dothan, AL) low bid of \$108,322.00. Although low on the

motor grader - Tractor & Equipment Inc. (Montgomery, AL) at \$105,884.00. Flint Equipment (Troy AL) was awarded the bid at \$135,900.00 because, according to Tindell, Tractor & Equipment's piece of equipment did not meet specs. The low bid on the back hoe was submitted by Flint at \$66,300.00.

Tindell recommended that bid awards on compactors be tabled until the next scheduled commission meeting.

During the general business session, Tindell recommended the commission approve the final plat on the Sleepy Hollow subdivision. The subdivision is located off Co. Rd. 704. He also asked that the bid openings on the NRCS (Natural Resource Conservation Service) flood repair sites be rescheduled.

Finally, he asked that bids be sent out on the paving and resurfacing projects on the three-year plan for road improvement on county roads. In addition, Tindell asked that Co. Rd. 209 be substituted for Co. Rd. 223 in the three-year plan because it was already being taken care of due

to recent flood damage. The commission concurred and approved his requests.

Once again, library funding was a topic of discussion at the commission meeting. Oliver Williams, representing the Enterprise Library Board, was on the agenda under "new business." When Williams was recognized, he yielded his time to Commissioner Tom Grimsley.

Commissioner Grimsley told commissioners that while working on the budget in July of 1997, the commission agreed to allow the Elba and Enterprise division to come out of the Cross Trails Library System. He commented that Cross Trails was receiving sixty percent of the funds received from the Alabama Library Service (ALS) leaving forty percent to be divided between the Elba and Enterprise libraries.

"If I remember correctly, it was agreed upon that Cross Trails would accept the mail-out for \$1,000.00," said Grimsley. "What we need to do this morning to clear this question up is to adopt a formal motion allowing Elba and Enterprise to come out of Cross Trails."

The commission passed Grimsley's motion unanimously. With the passage of the motion, now, the funds received from the state (ALS) will be divided between the Elba and Enterprise libraries proportionally based on the census report (population of each division) mailed into the state.

Commission Chairman Robert Stephens commented, "Last year,

the county received approximately \$1.18 per person living in the county. Next year, it will be less - probably 8 to 10 cents per person.

The commissioners' only reservation in making this decision seemed to be their concerns that every citizen of the county may not have access to library services without Cross Trails.

Williams said, "We're not against Cross Trails, and if it takes it for them to continue this service [books-by-mail] to the people that they are serving, we would not mind your taking another \$1,000 out of our appropriation if that is what it takes to continue this service. We'd be happy for you to do this!"

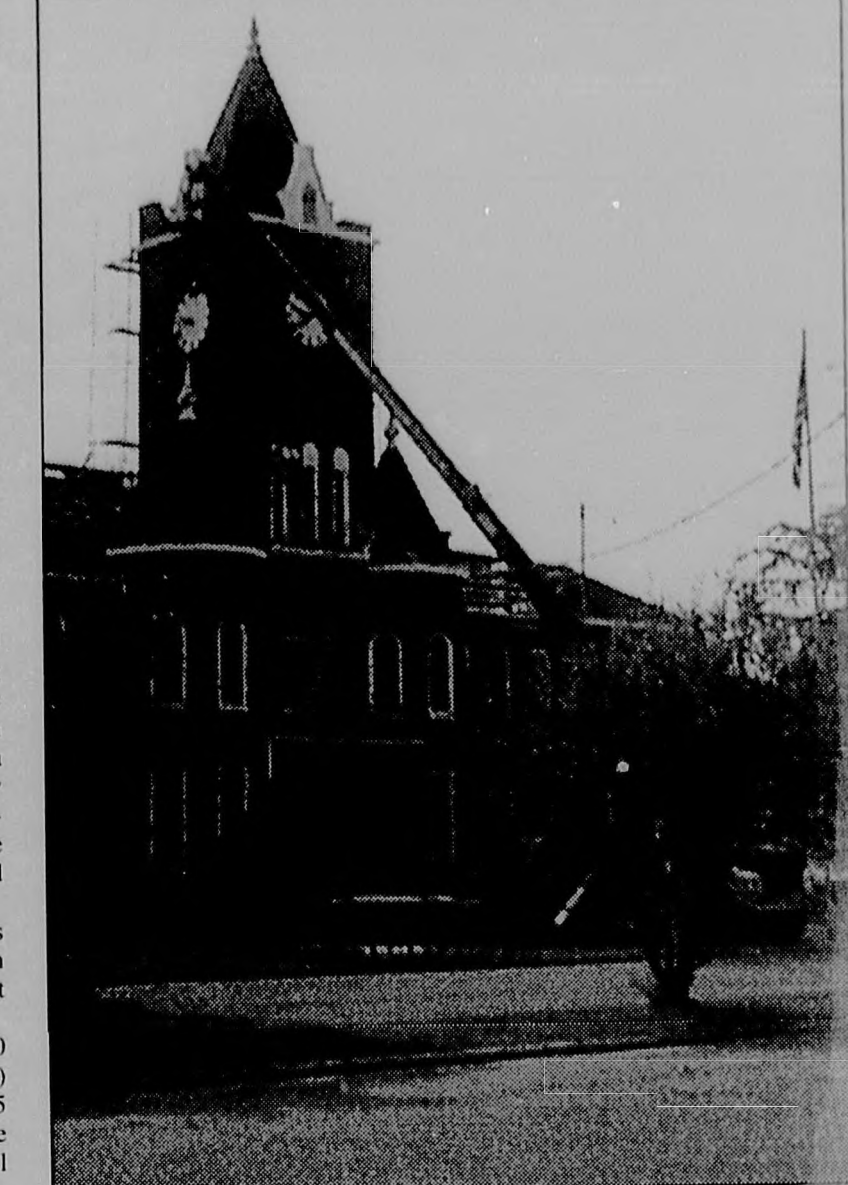

Chairman Stephens informed commissioners that in a meeting with the examiners of public accounts last Friday, Susan McGlothren's attorney presented a check for the missing county money allegedly taken by her to the auditors which was re-deposited to the county landfill and gasoline fund accounts.

Recently, Mrs. McGlothren was arrested and charged in connection with more than \$71,000 which went missing from county coffers.

A check for \$52,954.81 (\$19,000 was recovered earlier in the case) was presented to the county. \$1,005 was revenue from the sale of pipe while the remainder was landfill revenue.

"Although the money was returned, no concessions were or

Area drug bust nets 28 arrests

Charges include distributing cocaine, carrying firearms while distributing

In a press conference in Enterprise, AL on Wednesday, May 20, 1998, United States Attorney Redding Pitt announced that in the early hours (May 20) in Enterprise, Andalusia and Dothan, Alabama, a multi-agency drug raid was conducted resulting in the arrest of 28 individuals. They were arrested on federal and state indictments.

The joint operation spanned approximately four months which targeted major drug traffickers and violent offenders operating in the South Alabama area.

Seventeen subjects arrested under federal indictments have been charged with knowingly and intentionally distributing cocaine base and methamphetamine which are both Schedule II controlled substances, in violation of Title 21,

United States Code, section 841 (a)(1). Certain subjects have been charged with possessing a firearm in relation to the commission of a drug trafficking crime, in violation of Title 18, United States Code, Section 924 (c)(1).

The subjects arrested under state indictments will be charged with violations of state drug statutes. Names of twelve of the individuals indicted and arrested on charges of a conspiracy to distribute controlled substances in Andalusia have been released. They are: Victor Benson, 24, Frederick Chambers, 27, Dexter Daniels, 33, Charles Erwin, 39, Waverly Flowers, 42, James G. Hunter, 38, Ronald Hunter, 33, Willie Charles Hunter, 38, Eddie Earl Johnson, 47, Mary Hunter Johnson, 42, Keith Parker and Kenny Parker, both 26. All are residents of Andalusia.

Three men who were indicted but not arrested are considered fugitives. They are: Harold Glenn Hall, 33; Tyrone G. Hunter, 35; and Derrick L. Jackson, 26. They are

also residents of Andalusia.

All are charged in the indictment with engaging in a conspiracy to distribute cocaine base, cocaine and marijuana in the Middle District of Alabama. Each individual is also charged with one or more counts of distributing or possessing with intent to distribute those same controlled substances.

Investigators also arrested four other individuals in south Alabama in unrelated cases. Michael Wayne Miller, 27, of Florala, AL, was arrested. He is charged in a three-count indictment with distribution of methamphetamine and using and carrying a firearm during the distribution.

Jabau Holland, 24, and Kenneth Townsend, 19, both of Enterprise, AL, are charged in separate and unrelated indictments with distribution of cocaine base, or crack cocaine.

All of the above individuals were arraigned on Wednesday, May 27, 1998. Trial of the cases are set for July 7, 1998 in United States District Court.

The following agencies were involved in this successful joint operation: Drug Enforcement Administration, New Orleans Field Division (NOFD), the Mobile Enforcement team (MET) and the Montgomery Field office; Enterprise Police Department; Coffee County Sheriff's Office; Elba Police Department; Andalusia Police Department; Covington County Sheriff's Department; U.S. Customs Service; U.S. Marshals Service; Bureau of Alcohol, Tobacco and Firearms; Alabama Air National Guard; Alabama Bureau of Investigation; the South Alabama Regional Drug Task Force; the 12th Judicial Drug Task Force; and the Violent Crime Task Force.

Prosecution of these cases will be handled by the United States Attorney's Office, Middle District of Alabama, and the District Attorney's Office in the 12th Judicial Circuit and the District Attorney's Office in the 22nd Judicial Circuit.

Last Friday, Ted Roberts, chief executive officer of SouthTrust bank, Elba, and Jim House, chief executive officer of SouthTrust Bank, Dothan, presented Marion Nelson, chapter manager of the Coffee County American Red Cross, a check for \$10,915.00 to provide assistance to victims of the early March floods in several southern Alabama towns.

This check represents contributions raised across the state in the South Alabama Floods Relief Fund. Roberts and House turned the check over to Nelson during a presentation at the SouthTrust Bank in Elba at 2:00 p.m.

"On behalf of everyone who contributed to this tremendous cause, we are more than delighted to present this check to the American Red Cross," said Roberts. OPINION

BRAINSTORMS

With Ferrin Cox

Next Tuesday is election day in Alabama... at least it is the first go-around in the party primaries. Both the Democrats and the Republicans will begin the process of selecting their representatives for the November General Election. The situation is still something a bit unusual for most Alabama voters. Many of us grew up considering that if you won the Democratic primary in May or the primary run off in early June, then it was just a formality to wait for the November election to designate a candidate as "officer holder-elect." Now things are very different and the interest in the primary election appears to be a case of no interest. Whatever, we will be there next Tuesday and somehow or another decide which party to get in bed with this time around. We have a race or two in each party which we would like to help decide the outcome of, but that is not to be. We are so little informed at this time, we can't even say how we will vote!

There is a sample ballot from each party on Page 11 of this issue of *The Elba Clipper*. We urge every Coffee County voter to look at these and pick your party and/or candidates. Don't be upset if you don't see the name of some candidate you want to support. Unless a person has party opposition, their name is never on a primary election ballot. Come November, everyone will get their shot at these who are unopposed in their party (or even unopposed completely). Alabama does not have a category of "none of the above," but a disgruntled voter can go the write-in route and vote for Donald Duck, etc. If the protest feelings are strong enough, it won't do any good on election night, but it might be the only safe outlet for venting built up anger!

P.S. Coffee County voters will use new voting machines this year and the whole thing is different, so don't panic when they hand you a paper ballot to mark... it will be stuck in a machine by you and no one will ever know how you voted!

The nation continues to shudder over the recent happenings at that high school out West. The self-proclaimed experts are making the rounds of the talk shows telling folks what needs to be done to prevent this happening again. Considering we have had school violence in half a dozen states during the past year, something does need to be done, but we don't know what that something should be. Our lack of insight on "a solution" is shared by many other folks. Actually, there is probably no one solution which will make America a Garden of Eden. The root causes for the problems are possibly as diverse as the United States. Some blame economic stress... that will not hold true in these latest killings; others blame racial stresses... neither will that float in several of the latest round of random killings as the accused are not minority race youngsters; then there is the claim of lack of parental interest... we can shoot that down in several of the afore mentioned disasters. The list goes on and on and doesn't solve a single problem. It will take real family love, religious training, community involvement, and even a lot of help from those mental health advocates (which we often scoff at personally). Even those suggestions are not enough and as the world population grows fatter, the pressures are going to get more severe.

We read some news on the internet about Dorsey Trailers last week. It seemed they had won a lawsuit relating to the closing of their plant up North. A quick check however found they had only won a small part, or one finger, of that case. The others are being handled in court one at a time.

He Only Takes the Best

God saw hewas getting tired and a cure was not to be. So he put his arms around him and whispered, "Come with me."

With tear-filled eyes we watched him suffer and fade away. Although we loved him deeply, we could not make him stay.

Why have family reunions?

By SANDRA T. COFFEY
County Agent-Coordinator

Reuniting family members can be a rewarding, yet monumental task. Reunions depend on the cooperation and teamwork of the entire family. As members are drawn together during their annual, five- or ten-year reunions, family ties are greatly strengthened. Reunions are a time to develop relationships with distant relatives; they also create a sense of identity and give us pride in who we are.

Family gatherings are especially important to the younger and older members. Older relatives have the opportunity to reflect on the impact of their family while serving as family historians, and children benefit by gaining knowledge of their background. Also reunions afford children the opportunity to meet persons they would not have known otherwise.

Family members, between the young and the elderly usually have the responsibility of carrying out the workload of the reunion. Planning and conducting these activities are not easy tasks; yet, shared experiences, family stories, and lifetime treasures that cannot be taken away.

Where to Begin?
Planning a reunion takes time and total involvement of all family members, and at least a year is needed to prepare for the event.

The first step is to locate family members. Developing an accurate family directory is essential; it should be complete with names and ages of all persons in the household, addresses and telephone numbers (both home and work). The directory may be shared with family members in the early planning, as some relatives may want to make contact with kinsmen prior to the reunion.

Once family members have been

identified, find out if they want to have a reunion. A family questionnaire in the form of a checklist may be the easiest way to make the survey.

Checklists are convenient and promote faster responses; however, they limit options. Remember to leave space for comments.

Basic information needed includes: date, time, location, interests, accommodations, food arrangements, and names of those willing to serve on a committee.

When time, date and location have been set, facilities can be secured. The next step is to share the workload evenly. Committees need to be formed and a reunion chairman selected.

Reunion Day
It is a good idea to begin and end reunions with a formal family meeting. The opening meeting should introduce everyone, announce births, deaths, marriages, and other noteworthy events within the family. Opening remarks will orient family members to the facilities and planned activities.

Some suggested activities for the day are: photo sessions; family history displays; family movies or tapes; family story telling (the sure to bring your tape recorder); exchange of family recipes; family photo album displays; and family auctions (auction homemade or old family items).

THE PRESSBOX

By Ricky Mularz

School has been out for only a matter of days, and already I have threatened to swing a belt and let it hit where it may, ship one of the girls off to Grandma's, and lock both girls in their rooms. I know it will get better as the excitement wears off (ya, right), but for now the summer vacation has Dad biting his nails and his lip!

ONCE OVER LIGHTLY....

***Coach David Sikes announced last week that the Elba Tigers will open their football season next season on a Thursday night against the Brantley Bulldogs. The move to Thursday should help pack Tiger Stadium with high school fans ready to watch a game, and at the same time should give Coach Sikes and his staff a chance to scout the Tigers' opponent for week #2. I have always thought a Thursday night season-opener was a great thing, and it is even better now that the Tigers will be hosting the opener this very season.

***Elba's Ronnie Davis was selected last week as one of eight high school baseball players to advance to the second round of the East-West High School Baseball Series. Davis was originally chosen as one of the 32 players to make the local squad, then shined in the double-header in Enterprise and by doing so earned the right to move on to the second round. Davis has made a lot of folks mighty proud with his exploits on the baseball field, especially in the All-Star action.

***Elba will host the 1998 Dixie Youth Sub-District Baseball Tournament in July, and for the first time ever Elba will be represented in the tournament by two All-Star teams. The league grew to eight teams this season, and since the rules state a league must have one All-Star team if it has six teams, or less, it made it necessary for Elba to field two All-Star squads. The expanded All-Star line-up should be exciting for all area fans, even if the coaches are scared that having two teams will weaken the squads. I say it's great, and can't wait for the tournament to get started.

***Plans float around and sometimes never reach the ground, but last week plans were made to build a Tee-Ball field at Hawkins-Williams Park. The new field would be constructed down at the bottom of the 46-acre complex, and would open up one of the larger fields for more men's softball teams. The plans are still floating around, but they sound like what the doctor ordered for the over-crowding conditions at the park.

Hawkins-Williams pool to open on May 30th

The Elba municipal pool, located at Hawkins-Williams Park, will open for the summer on Saturday, May 30, at 10 AM. The pool will remain open throughout the summer, with hours of operation being 12:00 (noon) until 6:00 PM on Tuesday through Friday, 10:00 AM until 6:00 PM on Saturday, and 1:00 PM until 5:00 PM on Sunday.

Admission to the pool is \$1 for children 12 and under, and \$2 for all swimmers over the age of 12. Children under the age of 4 will be admitted free with a paying adult.

Giants, Cardinals post wins in Dixie League

The Dixie Boys baseball League continued its season last week with the Giants and Cardinals claiming wins in games played in Elba. Following are highlights of both games:

***The Giants pulled ahead early and coasted to an 11-4 win over the Sox. Chris Caine got 2 hits and scored 3 runs to lead the Giants, while Antoin Turner added 2 hits, and Davie Williamson and T. Burnett both scored 2 runs. Seth Legg and Kevin Dowdy both got 1 hit and scored 1 run for the Sox.

Zion Chapel Athletic Club sets meeting next Tuesday

The Zion Chapel High School Athletic Club will hold its next meeting on Tuesday, June 2, at the Zion Chapel High School band room. The meeting will begin at 7:00 PM, and all members and prospective members are urged to attend.

Weatherington wins at SAMS

The South Alabama Speedway held another exciting night of stock car racing on May 16, with action in four classes.

Elba's Jerry Weatherington took the checkered flag in the SUPER STOCK class, with Jeremy Sumrall, of Enterprise, taking second, and Rick Northey, of Opp, claiming third place.

In the SPORTSMAN class Heath Mills, of Opp, took the top prize, followed in order by Wetumpka's Jim Walker and New Brockton's Kerry Adkins.

FINE MEAT OF FISH: Annie Tyson, Nancy Tyson, and daughter Randell, caught 16 catfish which weighed in at 16 pounds recently in Coffee County Lake.

Dixie Youth, Dixie Minor leagues have big week

The Dixie Youth and Dixie Minor Baseball Leagues had another busy week on the diamond with plenty of action in each and every game. Following are highlights of recent action:

***The Yankees pulled ahead early and rolled to an 8-2 win over the Rays. Derrick Thomas got 2 hits for the Yankees, while Matthew Curran and Aaron Harselton both scored 2 runs. Jamie White got 1 hit for the Rays.

***The Mariners took charge early and never let up in posting a 16-5 win over the Brewers. Brett Horton got 3 hits and scored 3 runs to lead the Mariners, while Ralston Moore added 2 hits and scored 3 runs, and Ben Dye scored 2 runs. Cody Ellis and Hayden Osborn both got 1 hit and scored 1 run for the Brewers.

***The Braves pulled ahead early and rallied late to down the Athletics 7-4. LaRay Williams and Lonzo Cook both got 2 hits and scored 2 runs for the Braves, while Colton Creel ripped a triple and knocked in 3 runs for the Athletics.

***The A's used a big third inning to grab the lead and rolled to an 11-8 win over the Rays. Trent Baker ripped 3 hits, including a home-run, to lead the A's, while Heath Parker added 3 hits and Ryan Gibbs scored 3 runs. Zach Legg got 2 hits for the Rays.

***The Cardinals used a late rally to ease past the Pirates 8-7. Duke Carr and Chase Boutwell both scored 2 runs for the Braves, while Cody Arnold scored 2 runs and hit a home-run for the Pirates.

***The Cardinals led all the way to down the Mets 6-1. Tyler Simmons, Brett Parrish and Kyle Cheesbrough all got 1 hit and scored 1 run for the Cardinals, while Bryan Allums scored the Mets only run.

I want to leave Yonnie a lot of love and determination. If you're at Elba High for the next 6 years, you'll need this to defeat the power of a weak mind. I love you always. I leave Bud my common sense. Although you are

Harry Higgins and Jack Wall in community garden known as "old Claude Hargett place"

Community gardens fading from Southern landscapes

by Bernie Cobb,
Certified Master Gardener

Like some old Heritage plants and rare animals, the "community garden" seems to be fading from the scene. I have heard of volunteers starting community gardens to help folks living nearby, only to find that once the seeds are in the ground, the people need to hoe and pull weeds have vanished with the wind. The unfinished garden is sadly left to those who were there only to demonstrate and supervise.

But one local community garden dating back to at least 1971 still survives the ravages of time. Located in east Coffee County just west of Level Plains, it is known by "locals" as the "old Claude Hargett place."

Two veteran survivors of the garden are Harry Higgins, Enterprise, and Jack Wall, Daleville. Both are retired military criminal investigators who finished their active duty tours at Ft. Rucker.

"Oh, we used to really have a nice bunch of guys out here all the time," Higgins recalled from the early 70's. "Claude had some cattle and sheep; also some dogs, quail, turkey, geese, ducks, and grew vegetables. He also grew hydroponic tomatoes where the greenhouse used to stand over there."

"We had several well-known people from Ft. Rucker who used to come out to help us, or to just watch and talk," Wall added. "Col. Gene Conrad, head of the safety center then; Jake Forner, who was killed by a train at the crossing in Esto; and some other well-known folks. They all used to come."

Hargett is deceased now but the farm is still controlled by his sons

who graciously encourage Higgins and Wall to continue gardening and raising chickens. C.C. Martin, a retired English school teacher, grows large row crops on 79 acres of adjacent land.

"We are growing Easter eggs here," was Wall's first response to my opening question. As proof, he showed me a dozen pretty eggs of blue, green, white, brown and olive pastels laid by the Araucana chickens which claim residence there along with White Leghorns, Bantams and Plymouth Rocks.

"We had some guinea hens, too," Higgins added with a grin. "But they gradually became roadkill. When they get out and one heads for the highway, they all head for the highway," he explained.

"The big attraction for me at the once popular gardening 'hangout' was the vegetables.

"We like to experiment a lot with what we grow," Higgins pointed out. We grow two kinds of - fingerling potatoes, okra, peppers, beans, and Vidalia onions. Also, we've got several kinds of eggplant."

It's not just the familiar deep purple, pear-shaped eggplant anymore. I intend to go back one day soon and see some of those "White, Smoked Sausage, Green, Orange (Turkish) and Ichibon" eggplants.

The Ichibon variety has been a regular favorite for over 25 years. Seeds came from the West Coast. It grows long - almost two feet. Now that's what you call experimenting in the garden.

"The most exotic thing we have grown is Kohlrabi," Walls chimed in. "And then there's the purple beans. They grow purple and then turn green right before your eyes while they are cooking."

There are four kinds of sweet peppers in the garden, plus six kinds of tomatoes and at least three kinds of garlic, including Korean Red, German Red, and Elephant garlic.

"How do you decide what to plant and who does what work?" I asked. "Everybody does just about what they want to," Wall insists. "We look at the seed catalogues and talk about what we would like to grow this year. And that's what we do. We definitely aren't commercial gardeners. We are just playing around with it and having fun."

Just where does all that fresh produce go at harvest time? "What we don't eat, we give away," Higgins answered just as I spotted Wall throwing some freshly-pulled collards into the chicken coop. "They eat that stuff!" I asked the ex-CID agents.

"Those chickens will eat almost anything you give 'em," Wall replied with a chuckle and a grin.

It's obvious why the two ex-soldiers have fun in the garden and farmyard. Working only from 7 a.m. to about 9 a.m. they are smart enough to quit before it gets too hot or they get too tired. And, they both agree on why the community garden, once a popular attraction for many of their friends, has now dwindled down to just a couple of old buddies trying to enjoy their well-deserved retirement.

"Over the years," they both agreed, almost as one, "some of our old friends moved away, some got remarried and developed other interests, and some just died off. The younger folks? It seems they just don't want to get involved in this kind of activity these days."

What a pity!

ORDINANCE NO. 1998-4

AN ORDINANCE APPROVING AN ABATEMENT AGREEMENT WITH KELLEY FOODS OF ALABAMA, INC.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ELBA as follows:

Section 1. The City Council (the "Council") of the City of Elba (the "City"), upon evidence duly presented to and considered by it, has found and determined, and does hereby find, determine and declare as follows:

(a) it is necessary, desirable, and in the public interest, to grant an abate-

ment of all of the taxes allowed to be abated under Chapter 98 of Title 40 of the Code of Alabama 1975, for the maximum abatement or exemption period, with respect to an industrial manufacturing project (the "Project") to be acquired and constructed by The Industrial Development Board of the City of Elba, within the City of Elba for lease to and use by Kelley Foods of Alabama Inc., a corporation.

(b) Kelley Foods of Alabama, Inc. has petitioned and applied pursuant to the Abatement Law for an abatement of all taxes which may be abated pursuant thereto, for the maximum abatement or exemption period, with respect to the Project pursuant to the following petition and application:

(c) The City hereby finds and determines that the foregoing petition and

application contains information that permits a reasonable cost/benefit analysis to be made as to the proposed industrial development property and a determination of the maximum exemption period for the abatement of all taxes which may be abated under the Abatement Law with respect to the Project.

(d) It is necessary, desirable, and in the public interest, for the City to approve, grant, ratify and confirm the abatement of all of the taxes allowed to be abated under the Abatement Law, including particularly and without limitation Section 40-98-4 of the Code of Alabama 1975, with respect to the Project for the maximum abatement or exemption period.

Section 2. An Abatement Agreement between the City and Kelley Foods of Alabama, Inc. in substantially the fol-

lowing form and of substantially the following content, with such changes or additions thereto or deletions therefrom as the officers of the City executing the same shall approve, which approval shall be conclusively evidenced by such officer executing the same as hereinafter provided, is hereby approved, adopted, authorized, ratified and confirmed:

Section 3. The Mayor of the City is hereby authorized and directed to execute and deliver said Abatement Agreement for and on behalf of and in the name of the City. Any prior execution by the aforesaid officer is hereby ratified and confirmed.

Section 4. The officers of City are hereby authorized and directed to take all such actions and execute and deliver all such agreements, documents, instruments and notices

as may be necessary or desirable to carry out the purposes of this Ordinance. All prior actions of any officers of the City with respect thereto are hereby ratified and confirmed.

Section 5. All ordinances, resolutions, orders, and any other proceedings of the City, in conflict or inconsistent with the provisions of this Ordinance, are, to the extent of such conflict or inconsistency, hereby repealed.

Section 6. This Ordinance shall take effect immediately upon adoption. Approved and adopted this 11th day of May, 1998.

have been granted," said Stephens.

He asked the members of the commission how they wished to proceed with the case or if they had any recommendations to make to the courts and/or the district attorney.

"If no one else does, I'd like to make a motion that we proceed with the full intent of the law," said Stephens.

Commissioner Kayo Lewis commented that it is his understanding that Mrs. McGlothren has been arrested and charged with the crime. He further questioned why the commission should take any action concerning the incident.

"It's the district attorney's responsibility to prosecute and let the judge or jury decide whether she has broken the law or whether she has to pay the penalty," he said. "I don't think you should be able to steal money - pay it back and it just be forgotten!"

"We have a history of this type of thing here in Coffee County," commented Commissioner Bernest Brooks. "We need some type of deterrent against persons/employees working for the county misusing county funds and just being slapped on the hands."

The county attorney, Kenneth Fuller, explained that it is a usual practice of the district attorney to get input from the victim of a crime (in this case the county) before proceeding with the prosecution of a case. The fact that the examiners of public accounts recovered the missing funds has nothing to do with the prosecution of the case.

After several minutes of discussion, the commissioners voted unanimously to inform the district attorney to proceed with the prosecution of the case to the full extent of the law.

Prior to adjourning to pay bills, the commission approved a motion by Commissioner Linda Westbrook to apply for a \$10,000 grant to fund a comprehensive study of the county's water systems by David Hicks & Associates.

This study will show the weaknesses and the strengths of the different systems and what can be done to improve the county's ability to provide quality water to every county resident. It will also be instrumental in obtaining government funding to improve the county's water supply.

Other actions taken by the commission consisted of the following:

- ***Voted 4 to 3 to continue the policy of not loaning chairs and tables belonging to the county to groups or persons unless it involves a county related function.
- ***Approved the installation of air conditioners (110 volt - 7,000 btu) in rural voting houses. Estimated cost is \$227.00 per unit.
